

# BORN TO DIE

Horses across the UK are being kept in conditions that fall short of the law. Illegal breeding, constant tethering and poor care are still common in some communities of horse owners in the UK, leading to foals being #BornToDie

We need your help to tackle this.

**ENFORCEMENT | EDUCATION | TRANSPARENCY**

Remus Memorial Horse Sanctuary is a charity registered in England and Wales.  
Little Farm, Buttsbury, Ingatestone CM4 9NZ | [remussanctuary.org](http://remussanctuary.org)

**Remus Memorial Horse Sanctuary** provides care for horses, donkeys, and other equines and farm animals, caring for animals which have suffered shocking abuse and neglect. As well as helping as many animals as we can at our sanctuary in Essex, we want to help thousands more by campaigning for **enforcement** within local authorities of animal welfare legislation; with stronger **education** and **transparency** on prosecutions.

We need your help - through **campaigning**, **donations** and **support** for our work.
